

GREAT WINTER & PERFORMANCE

GDW01 maximizes safety due to siping technology and pocket sipes for excellent curving and braking stability.

WINTER TIRE
GDW01

WINTER TIRE GDW01

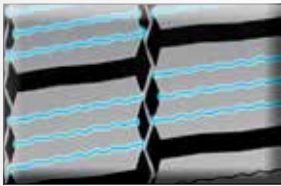

Size Range:

Size	PR	Load Index	Speed	Tread Depth (mm)	Standard Rim
11R22.5	16PR	146/143	L	22.5	8.25
11R24.5	16PR	149/146	L	22.5	8.25

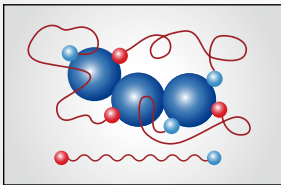

Recommended position

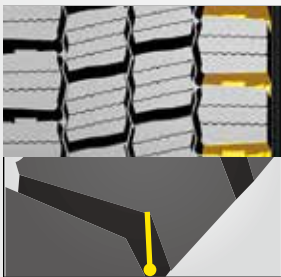

Features & Benefits:

Optimized tread pattern with unique block and sipe design give superior winter driving properties.

Specialized snow formula provides superior traction on snow and ice.

Unique casing construction combined with deep tread depth contribute an optimal footprint, excellent wear pattern with a high mileage potential.
